RAM 1500 INTERIOR SHOWN

FINALLY. A TRUCK WITH A CHARACTER AS DISTINCTIVE AS YOUR OWN. THE NEW RAM LARAMIE LONGHORN.

AND THIS IS CHARACTER DEVELOPED FOR THE VERY SINGULAR DRIVER. Some are content merely to get to where they're going. But the individuals who drive the Ram Laramie Longhorn know that the journey IS the destination — and they go further than the rest of the crowd. Which is why, by design, our engineers created touches so uncommonly brilliant, they stand out like rare gemstones. Look at these unique seats, with detailed stitching on the leather throughout the cabin: on the console shifter on 1500, on the unique storage bags, on the seatbacks, on the center console armrest/cover. Look for unique gauges and the touches of crafted silver on buckles and instrumentation, including silver badging and emblems that further define this exceptional luxury pickup. The fact is, the world has never seen a Ram with such a lovingly designed interior as the new Ram Laramie Longhorn.
